

## National Center for Civil and Human Rights

Join the Education Department of the National Center for Civil and Human Rights for a virtual tour of the Center's exhibits and how educators can utilize the space from near or far. The new virtual tour will give an intimate look at The Center's award-winning exhibitions and highlight features of the exhibits, including the March on Washington and our Global Human Rights gallery. Live Q&A will conclude the event and participants will receive a resource guide that further connects them with the content of The Center.
